Gradient boosting

A dominant testing data

True Positive Rate vs False Positive Rate

- domi.trained, (auROC=0.957)
- recess.trained, (auROC=0.910)
- unlabeled.trained, (auROC=0.946)
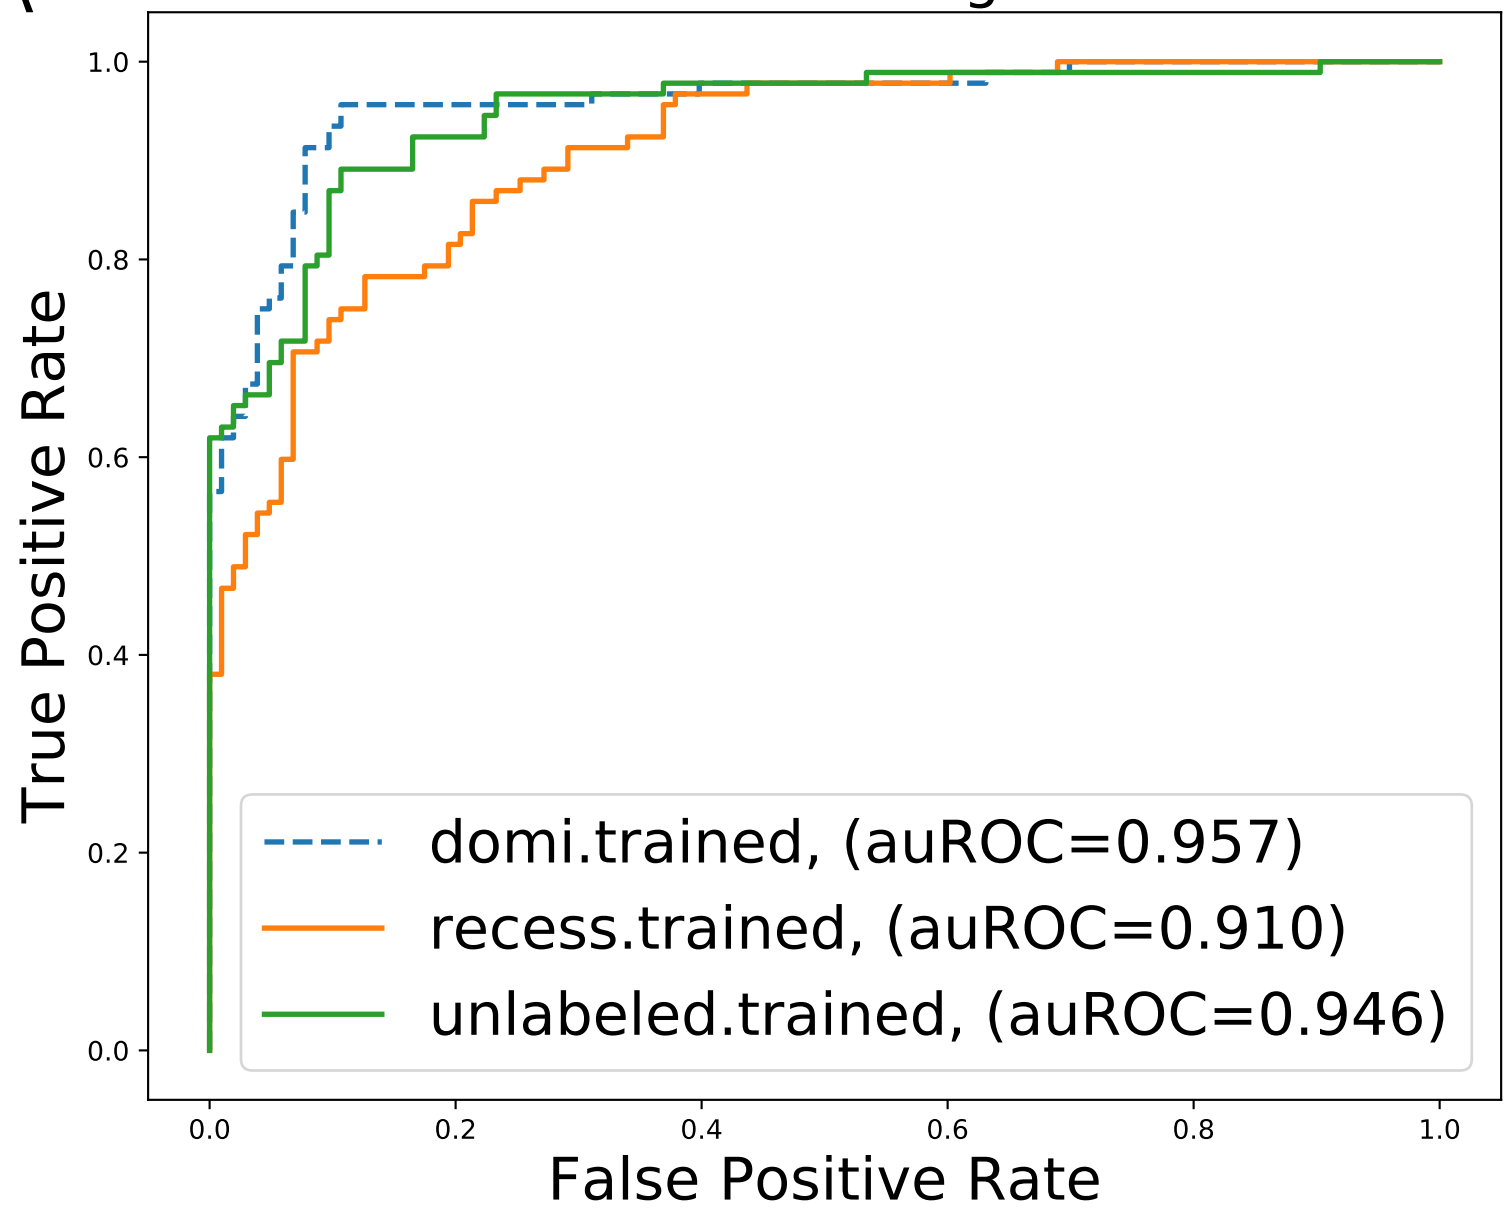

B recessive testing data

True Positive Rate vs False Positive Rate

- domi.trained, (auROC=0.951)
- recess.trained, (auROC=0.953)
- unlabeled.trained, (auROC=0.964)
